The Columbarium at Saint James Cemetery

Saint James Cemetery offers interment in a new columbarium. Located in the center of the cemetery, this provides another option for the respectful interment for those who have chosen cremation.

Constructed of Morning Rose granite and situated in the middle of a beautifully landscaped plaza, it is a

fitting place for the interment of a loved one's ashes after cremation. The columbarium is 7 feet high and 6½ feet in diameter. It offers 144 niches which can hold one or two remains.

Engraving of the facing after interment will be available from Eickhof Columbaria, Inc. of Crookston, MN. This will ensure a uniform appearance which will enhance the dignity of the columbarium.

Inscriptions

All inscriptions for the columbarium will be done by Eickhof, Inc. The cemetery staff will forward the front piece to them for the inscription. This will preserve the uniform look of the columbarium. The family will cover the cost of the inscription (which is set by Eickhof) and shipping. All inscriptions are limited to the person's name and years of birth and death. *(see picture on the reverse side of this form.)*

Decorations

Vases, pictures, flags or any other decorative items may not be attached to the columbarium. The cemetery reserves the right to remove anything that has been unlawfully placed on the columbarium.

Floral Memorials

As part of the landscaping around the columbarium, the cemetery has provided a stand for floral memorials, both artificial and real. This is to be used for all flowers left at the columbarium; flowers should not be laid on the ground or the pavement. Flowers left in the flower stand will remain for a reasonable time period before being removed so that other mourners can use the spaces in the stand.
